## **work of design**

SS011

Graduated in Industrial Design by Escola Superior de Arte e Design at Caldas da Rainha, started her professional career as a Designer in the same year as her formation ends (2009) with the first edition of Action for Age promoted by ExperimentaDesign and the Gulbenkian Program for Human Development. Simultaneously has worked in ModoDesign, an Industrial Design Studio.

Since 2008 has researched about Social Design as a social innovative tool, in which continues to work. From industrial products to services, from communication to typography, she uses her creativity to explore all areas of design.

Curiosity is the strongest point to discovery.
